

Regan Bourland

he/him/his

Seeking a full-time Web Development position—remote or local to Denver—ready for an immediate start.

Wisdom: Over 20 years of professional experience in development, design, research, architecture, and leadership.

Depth: I build compliant, inclusive, and modern web applications, but I also think beyond just writing code. I understand the business and user goals driving development. My various perspectives are great for bridging communication gaps between roles and/or teams; technical and non-technical.

Diversity: My expertise spans modern stacks, complemented by a strong background in enterprise legacy systems. I'm great at pattern recognition, allowing me to step into almost any stack or environment and succeed. This allows me to hit the ground running.

Collaboration: I help build - not just websites but - systems with efficiency, maintainability, and scalability in mind. I bring technical depth, architectural foresight, and team leadership skills.

Off-screen: I travel, challenge myself with puzzles, creative tinkering, and adventuring outdoors with family and friends.

Technical Background

- **Professional Skills:**

[FE] Vue	[FE] React	[FE] Angular	[FE] Alpine
[FE] HTML / Slightly	[BE] Django	[BE] .NET MVC	[BE] Java

Recent Professional Experience

- **Web Developer;**

ProAthlete Inc. (2021-Current)

Plan accessibility, user experience, A/B and UI testing, design integration, and development of all legacy B2C e-commerce sites and several modern internal business applications.

Stacks: .NET Core MVC, Vue/Vite, AlpineJS, ES6, Tailwind, Bootstrap, jQuery, Selenium, Clarity, GTM, HubSpot, SQL, Figma

- **Senior Developer;** **Diamond Merckens Hogan (2019-2021)**
 Develop and ensure static, CMS, and e-commerce sites were in fully functional, user friendly, and accessible.
 Lead AEM Developer (contract); created and managed any and all AEM projects
 Senior Developer (full-time); same as above, but with all projects - whether AEM, Wagtail, Wordpress, or otherwise
Stacks: Java, ES6, Maven, HTL/Sightly, jQuery, python, Django, PHP

- **User Experience Architect;** **Artisan Technology Group (2018-2019)**

Worked closely with partners and clients to improve messaging and strategies throughout their brands and systems. Beginning with market research and in-depth business discovery, I organized, planned, designed, prototyped and developed custom interfaces and marketing materials.

Accreditation: Amazon Web Services Business Professional

Stacks: AWS, .NET, Node, Angular, React, Adobe XD

- **Principal Developer;** **Intouch Solutions, Inc. (2014-2018)**

I worked closely with developers, architects and C-suite on complex and high-profile projects. I often acted as liaison with technology vendors and client IT groups. While my primary focus was always implementation and development, my team created SOPs, documented standards, and I mentored team developers. We created an enterprise-scale component library and style guide to be reused across brand properties.

Accreditation: Adobe Experience Manager 6.0 Expert Developer

Stacks: .NET MVC, Java, Maven, ES5, HTL/Sightly, jQuery

- **Web Development;** **Marketing; Softek Solutions, Inc. (2010-2014)**

Design and development of the websites, social networking and general online presence of the small company.

Stacks: PHP, Postgres, jQuery

Education

- Graceland University; Lamoni, IA (2001-2005)

- **Degree:** Bachelors
- **Major:** Visual Communications
- **Minor:** Psychology
