

# Regan Bourland

he/him/his

*Seeking a full-time Web Development position—remote or local to Denver—ready for an immediate start.*

**Wisdom:** Over 20 years of professional experience in development, design, research, architecture, and leadership.

**Depth:** I build compliant, inclusive, and modern web applications, but I also think beyond just writing code. I understand the business and user goals driving development. My various perspectives are great for bridging communication gaps between roles and/or teams; technical and non-technical.

**Diversity:** My expertise spans modern stacks, complemented by a strong background in enterprise legacy systems. I'm great at pattern recognition, allowing me to step into almost any stack or environment and succeed. This allows me to hit the ground running.

**Collaboration:** I help build - not just websites but - systems with efficiency, maintainability, and scalability in mind. I bring technical depth, architectural foresight, and team leadership skills.

**Off-screen:** I travel, challenge myself with puzzles, creative tinkering, and adventuring outdoors with family and friends.

---

## Professional Experience

- **Web Developer; Pro Athlete, Inc.; Kansas City, MO (2021-Current)**
  - Planned and executed accessibility and user experience strategies for B2C e-commerce sites.
  - Conducted A/B and UI testing to enhance user engagement and site performance.
  - Integrated modern design principles into legacy applications, improving overall functionality.
  - Developed several internal business solutions to streamline operations at Pro Athlete.
- **Senior Developer; Diamond Merckens Hogan; Kansas City, MO (2019-2021)**
  - Developed and maintained static, CMS, and e-commerce sites to ensure full functionality and user accessibility.
  - Managed and optimized AEM, Wagtail, and WordPress sites for enhanced user experience.
  - Collaborated with cross-functional teams to deliver user-friendly web solutions that meet client needs.
- **User Experience Architect; Artisan Technology Group; Kansas City, MO (2018-2019)**
  - Collaborated with partners and clients to enhance brand messaging and strategies.
  - Conducted market research and in-depth business discovery to inform design decisions.
  - Organized, planned, and developed custom interfaces and marketing materials tailored to client needs.
  - Contributed to the growth of Artisan by delivering user-centric design solutions.
- **Principal Developer; Intouch Solutions, Inc.; Overland Park, KS (2014-2018)**
  - Collaborated with developers, architects, and C-suite on high-profile projects, ensuring alignment on goals and deliverables.
  - Acted as a liaison between technology vendors and client IT groups to facilitate seamless communication and project execution.
  - Developed standard operating procedures and documented standards while mentoring team developers to enhance skill sets.
  - Led the creation of an enterprise-scale component library and style guide for consistent branding across properties.
- **Web Developer; Softek Solutions, Inc.; Prairie Village, KS (2010-2014)**
  - Designed and developed the web experience for softekinc.com, enhancing product visibility.
  - Managed the online presence, including social networking platforms.
  - Collaborated with team members to ensure a cohesive brand identity across digital channels.

- **Web Developer; Ultra International; Kansas City, MO (2009-2010)**
  - Maintained multiple websites for Ultra International, ensuring optimal performance and user experience.
  - Developed innovative marketing strategies for the company and subsidiaries to enhance product visibility.
