

Regan Bourland

he/him/his

Seeking a full-time Web Development position—remote or local to Denver—ready for an immediate start.

Wisdom: Decades of professional experience in development, design, research, architecture, and leadership.

Depth: I build compliant, inclusive, and modern web applications, but I also understand the business and user goals driving development. My various perspectives are great for bridging communication gaps between roles and/or teams.

Diversity: My expertise spans modern stacks, complemented by a strong background in legacy systems. I'm great at pattern recognition, allowing me to dive into almost any stack or environment and succeed.

Collaboration: I build systems with efficiency, maintainability, and scalability in mind. I bring technical depth, architectural foresight, and team leadership skills.

Off-screen: I travel, challenge myself with puzzles, creative tinkering, and adventuring outdoors with family and friends.

Recent Professional Experience

- **Senior Front-End Developer** **Pro Athlete, Inc.**
E-commerce: Sporting Goods; Kansas City, MO (*2021-Current*)
 - Migrated legacy .NET MVC [with jQuery] web applications to Vue [with Vite, Nuxt, Pinia, and Tailwind]
 - Led accessibility audits and improvements, ensuring compliance with WCAG standards while minimizing legal risk
 - Built and integrated NUnit with Selenium test suite into CI/CD pipeline
 - Worked with GTM and Clarity to analyze user behavior and optimize site performance and user experience
 - Collaborated with UX and A/B testing teams to maximize user engagement and conversion rates
 - Additionally utilized: JavaScript ES6, Figma, HubSpot, Optimize, SQL Server, and AWS S3 and Cloudfront
- **Senior Full-Stack Developer** **Diamond Merckens Hogan**
Marketing: Agency; Kansas City, MO (*2019-2021*)
 - Led Adobe Experience Manager (AEM) web development (utilizing Java, Maven, OSGI, Sightly, and jQuery)
 - Maintained and developed Django sites (utilizing Python, Wagtail, and Oscar)
 - Maintained and developed Wordpress sites (utilizing PHP, and jQuery)
- **User Experience Architect** **Artisan Technology Group**
Technology: Consulting Solutions; Kansas City, MO (*2018-2019*)
 - Organized, planned, designed, prototyped, and developed custom solutions for a wide variety of technology applications (utilizing Angular, React, Material, and XD)
 - Conducted market research and in-depth business discovery to provide user-centric design solutions
- **Principal Developer** **Intouch Solutions, Inc.**
Marketing: Agency; Overland Park, KS (*2014-2018*)
 - Developed dozens of websites for Fortune 500 healthcare companies (utilizing .NET MVC, AEM, Java, Maven, JavaScript ES6, Sightly, jQuery, Bootstrap, Veeva, and Angular)
 - Acted as a liaison between technology vendors and client IT groups to facilitate seamless communication and project execution
 - Developed standard operating procedures and documented code standards while mentoring team developers to become certified experts
 - Led the creation of an enterprise-scale component library and design system for consistent branding and functionality across enterprise solutions

• Web Developer

Softek Solutions, Inc.

Technology: Healthcare Software; Prairie Village, KS (2010-2014)

- Designed and developed the public web experience (utilizing PHP, JavaScript ES6, jQuery, Bootstrap and PostgreSQL)
- Managed entire online presence, including social networking platforms and event management
